Subject: I believe the Justice Department needs to settle the Microsoft lawsuit, now.

I believe the Justice Department needs to settle the Microsoft lawsuit, now.
This company has been grossly mistreated in this whole case. I am a consumer
and I and none of the customers have been injured by Microsoft. There are
MANY
software companies that charge \$395- \$895 for their software. I do not see
them
(pagemaker/Photoshop/Adobe products EVER criticized or brought to the
Justice
department for THEIR charges! I feel the American people have been fed a
lot of
untruths and I think it is time the Justice Department stands-up and stops
this unfair
treatment for an American Company that is out there in the forefront GIVING
LIBRARY'S,
SCHOOLS and many people the opportunity to learn how to access information
on the
computers. PLEASE DO NOT JUDGE THEIR MOTIVE FOR DOING GOOD TO THE
CITIZENS OF THIS COUNTRY. I WANT THEM TO DONATE COMPUTERS AND
SOFTWARE TO SCHOOLS!!! You do not see APPLE, giving away THEIR PROFIT
to schools and library's!! Please close this case
and HINDER MORE WASTE OF TAXPAYERS WITH MORE WRONGFUL LAWSUITS
like Microsoft's "rival" Netscape and the MONOPOLY KING of the Century,
AMERICA ON-LINE!
Here they filed a lawsuit to keep this unjust treatment going! Please close
the door to this
grossly unfair treatment!
